

## University & BOR-SREB Ph.D. Fellowship Application

The University of Louisiana at Lafayette has established a fellowships program for the recruitment of superior Ph.D. students. University doctoral fellowships are available in the areas of Applied Language and Speech Sciences, Computer Engineering, Computer Science, Earth and Energy Science, English, Environmental and Evolutionary Biology, Francophone Studies, Mathematics, and Systems Engineering. Additionally, and as available, the Graduate School awards Board of Regents/SREB Graduate Fellowships funded jointly by UL Lafayette and the Louisiana Board of Regents as an initiative to promote student and faculty diversity. These competitive fellowships are open to underrepresented minority doctoral students pursuing a Ph.D. degree and planning for a career in academia.

University Ph.D. Fellowships are competitively-awarded to support three or four years of doctoral study depending on a fellows' previous graduate work. Fellowship recipients receive both an academic-year stipend and a waiver of tuition and most fees for the academic year and summer sessions. The minimum stipend set for University Ph.D. fellowship is \$19,080 and the value of an accompanying fellowship tuition/fee waiver is \$13,000+ for Louisiana residents and \$31,000+ for non-resident students (for Fall, Spring, and Summer enrollment).

In 2020-2021, BOR-SREB fellowships will provide an annual stipend that ranges from \$20,000-\$30,000, tuition waiver, research and travel funding, and guaranteed funding for five years. These fellowships also include membership in the SREB Doctoral Scholars Program and, with it, participation in the annual Institute on Teaching and Mentoring.

**Fellowship applications are due on February 1 and must be accompanied by a complete application for admission to graduate studies.** A complete application for admission to graduate studies at UL Lafayette includes completion of the [online application](#); payment of a non-refundable application fee; submission (via the application portal) of transcripts from all institutions attended; receipt of official TOEFL or IELTS scores (if applicable) sent directly from the testing agency; receipt of three letters of recommendation from academic references familiar with the your scholarly accomplishments and potential for success in a research Ph.D. program; and receipt of additional application materials required by the individual graduate program. **Upon completion, this fellowship application should be uploaded via the application portal. Fellowship applications will not be accepted by email.**

### BIOGRAPHICAL INFORMATION
